Security

Extend the capabilities of Simon XTti with optional accessories for added convenience and performance. **Featured Accessories**

Simon XTti

Keeping families connected, protected and a whole lot more.

The Simon XTi is a self-contained security system that combines the powerful security of the Simon XT[®] and the convenience of the Two-Way Talking Touch Screen for a cost-effective, easy-to-use solution.

Safe

Two-way communication – microphone for emergency two-way communication with monitoring station personnel

Always secure – backup power supply keeps the system operational during power failures

Effective

Emergency fast-action keys – quickly summon Fire, Medical or Police assistance

Super-loud piezo siren – provides effective alert notice throughout the home

Hear clearly – speaker for voice audio status messages and prompts, live communications with monitoring station personnel and configurable “voice chimes”

Convenient

Easy to read – color LCD touch screen provides at-a-glance status of home and property

User friendly – simple, icon-driven, touch screen user interface—no buttons!

Stay connected – control lights, thermostats, door locks and other Z-Wave[®]-enabled devices

Options to make the most of your system

Make the most of your system when it's powered by Alarm.com. With optional Cellular reporting and interactive features, Simon XTi allows you to remotely monitor and control your security system for convenient and effective home protection.

Displays images on screen and online

View pictures captured with a wireless Image Sensor located remotely in the home. Images are retained and managed in a library on the Simon XTi and online for future viewing.

Receive voice, email or text message reports

Specified events can be quickly and conveniently communicated to a variety of preferred devices to facilitate quick response.

Remote lighting control

Ensure you come home to a brightly lit home for comfort and security. Likewise, turning off lights after you've left is easy and convenient.

Designed for modern life

Monitor household activity in real time

View household activity online, check in on sick or elderly loved ones, and even keep tabs on vacation properties.

Arm/Disarm Simon XTi from anywhere

Communicate with Simon XTi by phone or Internet to easily adjust your system to meet changing conditions.
