

Remote View For Mobile Device

Installation:

Installation instructions apply for both IC View (free) and ICRSS Pro (\$+advanced options).

1. Download the application from the **Play Store** or **App Store**.
2. In most situations, you can tap the recommended region then save in the top right. If the recommended region is incorrect, select the appropriate region from the list.
3. Select the **Home** option in the top left

Device Enrollment:

P2P:

1. Select **Device** from the **Navigation Bar**.
2. Tap the **+** button in the top-right of the **Device Manager** window and select **P2P/SN**.
3. You can scan the QR code if you have access to the P2P settings page. Alternatively, you can manually type in the serial number by selecting Manually Enter SN.
4. Select the device type NVR.
5. Fill in the following:
 1. *Device Name* - Device Name is how the app refers to the device. You can name this anything.
 2. *Username* - The username for the NVR.
 3. *Password* - The password for the NVR.
6. Click the **Save** button in the top-right after all fields have been completed.
